Third Party Outpatient Collection System (TPOCS)

What It Is...

TPOCS collects money from insurance claims for the Military Health System. It creates more than 3.5 million clinical, laboratory, radiology, pharmacy and medical affirmative claims per year.

Key Features and Benefits

- Creates automatic claims
- Processes clinical data into required claims forms
- Performs electronic billing
- Provides an effective mechanism to Military Treatment Facilities (MTFs) for identifying, recording, billing and collecting reasonable costs for outpatient care
- Delivers detailed financial reports automatically
- Monitors funds paid or denied by insurance companies

Highlight

TPOCS collects over \$200 million dollars in third party insurance payments annually for clinical, laboratory, radiology, pharmacy and outpatient medical claims. This revenue is sent directly to individual MTFs, from private insurance companies for use in enhancing health care services.
